CI/CD BENEFITS PROPOSAL
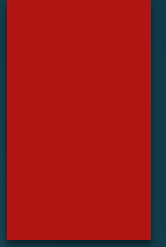

UDAPEOPLE

Unleashing the Potential of HR Innovation

➢ In today's competitive business landscape, staying ahead requires continuous innovation and rapid deployment.

➢ That means that the product made will need to change constantly to be able to meet the needs of the market

➢ From there, the product development process needs to always show the output to the user, thereby receiving feedback to change appropriately.
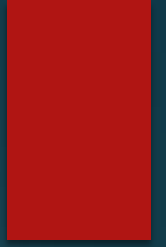

Fundamentals of CI/CD

Continuous Integration (CI):
➢ Automatically integrating code changes into a shared repository several times a day.
➢ Ensuring early detection of defects and promoting seamless team collaboration.

Continuous Deployment (CD):
➢ Automatically deploying code to production once it passes automated tests.
➢ Delivering new features and updates faster and with greater reliability.

The Business Benefits of CI/CD

Accelerated Time-to-Market:
- ❑ Reduced time-to-market for new features and enhancements.
- ❑ Staying ahead of the competition and capitalizing on market opportunities.
- ❑ Statistics or case studies illustrating the positive impact of quicker releases on revenue growth.

Enhanced Product Quality:
- ❑ Higher quality product with fewer bugs and issues.
- ❑ Improved customer satisfaction and retention, leading to protected revenue.
- ❑ Customer feedback or testimonials highlighting the impact of improved product quality.

The Business Benefits of CI/CD

Resource Optimization:
❑ Automating repetitive tasks to optimize resource allocation.
❑ Increased productivity and cost savings.

Early Defect Detection and Fixing:
❑ Automated testing catches defects early in the development process.
❑ Reducing the cost of fixing issues later in the product lifecycle.

Conclusion

The Power of CI/CD for UdaPeople:

➢ CI/CD enables faster delivery, higher quality, and cost-efficiency.

Unlocking Growth Potential:

➢ By implementing CI/CD, UdaPeople can unleash its true potential for innovation and revenue generation.

Request for Authorization:

➢ We seek approval to implement CI/CD, demonstrating a high ROI and long-term business benefits.
